BERKELEY OAKLAND WOMEN'S UNION

Office

2022 Blake Street, Berkeley, California, 94704
415-548-6093

There are two part time paid staff people, and volunteer staff, who are in the office usually Monday through Saturday (more or less) from 10 to 1. The current staff is Perl (653-0455) and Debbie (653-8079).

Planning Committee

The Planning Committee meets on Sunday nights at 7:00 at 2718 Telegraph. All members are welcome.

Mary Morgan 548-4500
Val Hertz 658-6817
Perl 653-0455
Jeri Mersky 843-4783
Barbara Dudley 548-8619

Focus Group Council

Does not yet have a regular meeting time -- call for time and place.

Women and Labor: Jane Meyer (658-2850)
Anti-Imperialist: Peggy Huard (658-8430) and Erika (654-8948)
Newsletter: Debbie Weintraub (653-8079) and Melaine ()
Socialist Feminist Theory: Sammie Evans (465-8722)
Rape: Barbara Besser (548-0358)

(for various reasons the Childrens Group, Lesbian Focus Group, and at-large members have not yet chosen representatives)

Focus Groups, etc.

Meeting times of the groups vary so much it is impossible to list them. For the groups not listed under the Focus Group Council, there are contact people whom you can call to find out meeting times.

Childrens Group: Louise Gross (845-6186)
Lesbian Focus Group: Lisa Murphy (658-2850)
Lesbian Caucus: Crisco Skidmore (658-5763)
Graphics: Sandra Golvin (841-6780)

Membership and Orientation

Membership in BOWU is based on agreement with the Principles of Unity (available in the office) and dues (2% of your income, or \$2 per month). Members are expected to attend membership meetings, help in the office, and generally to be active in Union activities.

Anyone interested in membership should attend an orientation meeting, which will be held within a week or two after membership meetings. You can sign up for orientation at a membership meeting, or call the office.

For information about socialist feminist study groups open to members and non-members, call the Socialist Feminist Theory Group (Jeri, 843-4783).

PG&E Asks for Biggest Rate Rise

A \$7.88
Addition
To Bills

By Michael Taylor

Pacific Gas and Electric Co. asked the state Public Utilities Commission yesterday for electricity and gas rate increases totaling \$637 million—the largest such request in the company's history.

The application, if approved, would raise the average householder's monthly bill of \$28.35 by \$7.88.

In January, the company asked for a \$68 million rate increase — for cooking and heating gas only.

A year and a half ago, it asked for a general rate increase of \$233 million.

If all these requests are granted in full by the state regulatory agency, the average householder's bill will go up \$11.71. The requests total \$938 million.

Of yesterday's request, the utility asked that about \$140 million — \$1.47-a-month to the householder — be made effective April 1.

Most of this figure represents what the utility calls "offset quarterly increases" — requests made every three months to account for the rising price of fuel used to generate electricity. They are not normally subjected to the scrutiny of public hearings and are usually granted, if not always fully, by the commission.

PG&E officials said that of this \$140 million, \$100 million would go toward "higher costs of the fuel the company buys to generate electricity" and the other \$40 million would account for a price increase of gas purchased from El Paso Natural Gas Co. for sale to PG&E customers.

That leaves, of yesterday's action, \$497 million.

Another Lawmaker Takes It Off

Sacramento

Assemblyman John Garamendi has joined the lower house's Great Coat and Tie Rebellion.

The Democratic lawmaker appeared at an Assembly committee hearing yesterday dressed in a western style jacket, matching pants and open necked shirt — without the traditional coat and tie.

Assemblyman Ken Meade (Dem-Oakland) raised a stir when he announced last week that he would continue to occasionally shun a tie.

Garamendi, a rancher

from the San Joaquin Valley foothill community of Mokelumne Hill, said his dress yesterday had not been prompted by Meade's statement.

"I just felt like wearing it," he said, adding that dress was "irrelevant to the way we do our work."

He said he had worn a similar outfit once before at a committee hearing and might do so on the Assembly floor.

"It would depend on how I felt that morning when I got up," he said.

Associated Press

PG&E

From Page 1

This is called a "general rate increase" and is made annually by PG&E to meet the increased costs, new labor contracts, production, research and construction.

The \$497 million increase will be the subject of several months of public hearings and will probably not go into effect, if granted, until some time in 1978.

State records show that over the past five years, the utility has been granted rate increases totaling \$630 million—about \$7 million less than the utility asked for yesterday.

PG&E currently enjoys a six per cent rate of return and 11.3 per cent rate of return on its stock. This figure is fixed by the commission.

PG&E officials said the new rates, if granted, would increase the rate of return (or profit margin) to 10.15 per cent and the rate of return on the company's equity (or outstanding stock) to 15 per cent.

In making the latest application, PG&E board chairman Sherman L. Sibley said, "we are distressed, as everyone is, over the burdens of inflation and recession, especially on those people who are struggling to make ends meet."

"But," he added, "there is simply no way we can avoid the energy crisis and the drastic impact of inflation on utility rates. We have to meet our costs and they must be reflected in rates if the quality of utility service is to be maintained."

A longtime critic of the utilities, Sylvia Siegel, director of Toward Utility Rate Normalization, said of the rate request, "it's so outrageous I'm practically speechless."

She charged that in the \$497 million part of the request "it is absolutely appalling that there is no mention of rate reform. PG&E is asking the small residential bill payer to assume the burden of this entire request."

Myron Demolition & Excavation

1330 SHADER ST. - SAN FRANCISCO, CA. 94117 - PHONE (415) 564-0814

April 28, 1975

RECEIVED

APR 28 1975

TURNER TRANS BAY CONSTRUCTION COMPANY
Mr. John McCarthy
1333 Broadway
Oakland, California

TURNER & TRANS-BAY

Dear Mr. McCarthy:

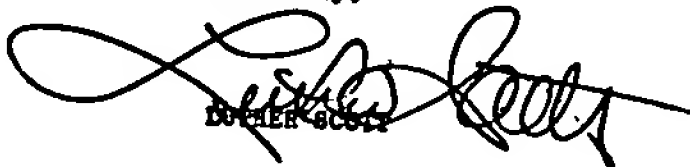

I am a minority contractor with 7 1/2 years experience in demolition and excavation work. I would like to request a notice on future bidding of jobs on any construction sites in California.

Myron Demolition and Excavation specializes in new development, site fill-ins, land clearing, plus concrete and asphalt removal. We have done work in the Northern and Central parts of California. Our Company is well known for its excellent service and outstanding skills. We use the most modern construction equipment such as 55 yard demolition boxes. We also rent equipment.

I am willing to bid on any jobs up to the capacity of \$500,000 or will negotiate. I will call you in a few weeks to discuss bidding on jobs which are available for bidding.

Meanwhile, please feel free to contact me by mail or telephone to answer any questions you might have and to discuss any future bidding on jobs.

Sincerely,

DUANE SCOTT

these drawers are locked. We recommend that anyone who robs a bank take 1 or 15 seconds at the beginning of the ~~xxxxxtxxxx~~ ^{operation} to have ~~the~~ all the tellers open ~~it~~ up their drawers before they get down on the floor. The financial gains are definitely worth those few seconds.

Q. Why did you fire on some of the people inside the bank?

~~Q~~ *over*
A.. We felt that these ~~people~~ ^{men} by their actions had attempted to interfere with us being able to carry out the operation successfully. There was no time for debate about whether or not this was actually the case. We can never hesitate to stop someone who actively attempts to fuck us up during an operation.

Because of our inexperience we had some pretty rigid ideas about how to deal with uncooperative persons, and about the amount of force that would be necessary to control twenty or more people inside a bank.. Inflexibility is one of the hazards of inexperience. We try to eliminate this weakness in a revolutionary way through practice and by criticizing our past actions. *After an operation is over, we always get together to discuss the details of what came down. In this way we expose our mistakes, and hopefully learn from them so that we don't make the same mistake twice. These meetings also bring to light our strengths, both collective and individual, and make even clearer what we are capable of.*

1. Going in chronological order, I think it was slightly after Tom joined the group that the SLA performed a bank robbery. Why did you decide to rob a bank?

There were 2 reasons; we ~~wanted~~ needed the money, and we wanted to illustrate that Ta was alive & he decided wasn't it a bunch of bullshit

A. Revolutionaries don't have vast sums of money and as a result they have to carry out actions against the financial interests of the capitalist class. While we are always able to put to good use the money and materials supplied by our comrades, banks are still one of the few places where large amounts of money are easily available.

Expropriations are dangerous and a pain in the ass. But since they are ~~xxxxtime~~ sometimes necessary our feeling is that we would rather do a big one. The risks are the same as doing a small armed robbery, and you get more money so it doesn't have to be ~~done~~ as often. Also, bank tellers generally have no subjective attachment to the money since it isn't theirs, and are very cooperative.

2. What did you need the money for?

A. For survival, future operations, weapons, ammunition-- for anything we need to insure our security and mobility.

3. Why did you choose the Hibernia Bank in San Francisco's Sunset District?

(*) However,
A. One of the main reasons why we chose this bank was because it had a good getaway route. Also, it had a really good position for back-up. ~~xxx~~ Whenever we do operations we have back-up,

style dictated by need to
propagandize Ta. et al

It would be incorrect to say that the fact that this bank had ~~a~~ cameras didn't have something to do with our decision. We wanted to propagandize to joining the cell, so we intended this to be a well-planned, but flamboyant robbery. In no way do we consider the flamboyance of this particular action as a model for any future actions.

What happened was this; ^{after} ~~as we were in the~~
~~bank for a while~~ after we'd gotten
everyone in the bank down on the floor
these two men walked into the bank.

They were several feet inside the door, and
were told to go over and lie down.

Instead, they decided to make a run for
the door. We couldn't believe it! We didn't
really expect any trouble from the customers.
In fact, we thought that the bank employees
would give us more trouble than the
customers, but we were wrong. We didn't go into
the bank ~~intending~~ with the intention of
shooting someone. That would be ~~unjustified~~
we also expected people to ~~be~~ ^{be} ~~operating~~ ^{help} with
us and not pick out ~~us~~ ^{us} ~~and~~ ^{also} ~~go~~ ^{go}

but for bank robberies this is especially important. Police will do next to nothing to preserve or protect the public's money and property. As a result, whenever a bank robbery is executed there is a high potential for crime to respond and prosper on the scene.

The job of the assault team is to secure the inside of a bank and get ~~the~~ money. Back-up job is to make sure that the assault team gets away safely with no tails. The back-up for this operation was positioned so that they looked inconspicuous, but had total visibility of all the directions from which the blow might come. Any pig unlucky enough to arrive while the robbery was in progress would have been met by a back-up team armed with machine guns. ~~--- 12 --- no shot ---~~

Of course we aren't anxious to have a shoot-out, either. We
don't want to limit the time of our stay, so that
there will be little chance of our being able to get to the
scene while we're still there. We assure that the moment we enter
a bank an alarm has been pushed-- but for that second, you only
need between one or two ~~xxx~~ minutes to totally clear out the bank
and still be clear of the police response time. Bank robberies
should be run FAST! We were only in the Fibersia Bank for
45 seconds.

Q. 45 seconds! And in that time how much money did you manage to take?

A. Just about all thousand, and we were only 30 to get into their houses. Since we had never ~~received~~ ^{hit} before, we didn't realize that each teller has a different set of keys for the type of so drawers at "their" window, and that generally

been imprisoned or died in
the struggle. --SLA--

The following quote by Cinque should
be on the same page as the dedication or
on the page following the dedication:

Yes, you do indeed know me, you
have always known me. I'm that
nigger you have hunted and feared
night and day. I'm that nigger
you have killed hundreds of my
people in a vain hope of finding.
I'm that nigger that is no longer
just the hunted, robbed and murdered.
I'm the nigger that hunts you now.

Yes, you know me. You know us all.
You know me, I'm the wet back.
You know me, I'm the gook, the
broad, the servant, the spik, Yes,
indeed you know us all and
we know you — the oppressor,
murderer, and robber. And you
have hunted, robbed and
exploited us. We are the
hunters. We give you no
rest. And we will not compromise
the freedom of our children.

Will Marshall Cinque Mtume
Symbionese Liberation Army

to us as individuals. We are trying to destroy bourgeois individuality in ourselves. However, we realize in the context of this book that many people may ~~later~~ learn from us how middle class whites develop revolutionary consciousness and put that consciousness into practice.

Once this book is completed we don't feel that anything can be gained by continuing to refer to us as individuals. Instead we wish to be known as 3 soldiers among the many soldiers who will fight for and with the people in the struggle for freedom.

4. We see the military-political aspects of this book dealing with the politics of the SLA and military skills, experience and strategy to be of top priority and personal experiences and feelings to be of secondary importance. We trust that this sense of priorities will be maintained throughout the editing process.

5. The dedication of this book is to read:

This book is dedicated to and written in the spirit of all revolutionaries who fight by any means necessary for the people's freedom and in particular to those comrades who have

bourgeoisie to write a book
struggle
we on advantage

✓ Lenin - Failure of revolution is the fault of the revolutionaries.

★ Stalin - Theory becomes purposeless if it is not connected with revolutionary practice, just as practice gropes in the dark if its path is not illuminated by revolutionary theory.

Stalin - The revolutionary will accept a reform in order to use it as an aid in combining legal work with illegal work and to intensify under its cover, the illegal work for the revolutionary preparation of the masses for the overthrow of the bourgeoisie.

✓ Martin Soetre - The irrefutable truth is that a liberation struggle is revolutionary war. Revolutionary war is a complicated process of mass struggle, armed and unarmed, peaceful and violent, legal and clandestine, economic and political, where all forms of struggle are developing harmoniously around the axis of armed struggle. Anyone who by now has not grasped these basic facts does not know what liberation struggle is or is trying to palm off reform for liberation struggle.

✓ George - Repression is here now and we don't reach the next level of revolutionary consciousness and activity until we meet it with counter-terror and demonstrate to the people that we are here and a resistance is possible. Terror tactics like lynching will never be allowed to work on us. If terror is going to be the choice of weapons, then there must be funerals on both sides.

Debray -- For a revolutionary, failure is a springboard. As a source of theory it is richer than victory -- it accumulates experience and knowledge.

Cho -- ~~The outcome of today's struggle is not important.~~ As far as the final result is concerned it does not matter whether one movement or another is temporarily defeated. What is decisive is the determination to struggle which is maturing daily.

Marx -- Force is the midwife of every old society pregnant with a new one.

Carlos - Let him who will do nothing for the revolution at least do nothing against it.

An unarmed people are subject to slavery at any time.

PFLP - Mobilization that is based on emotions and radio propaganda does not and cannot turn the masses into a solid revolutionary force which knows no despair. On the contrary a mobilization based on verbalism and emotionalism leads, in most cases, to the creation of illusions about our capabilities, to the dissipation of emotional promises (based on unfounded enthusiasm which itself gives the illusion of a quick and easy victory.). What is ~~needed~~ required now is the mobilization of the masses through revolutionary political consciousness....

PFLP - We cannot think or plan or fight without this creative dialectical relationship between us and the masses.

Declaration of Council of Revolutionary Coordination, Latin America - Revolutionary war is a complicated process of mass struggle, armed and unarmed, peaceful and violent, where all forms of struggle are developed harmoniously around the axis of armed struggle (repeated by Martin Castro)

Chicago Liberation Front - A death to one is a death to all, so if we die then let us kill. (this was in quotes in their communique, what ever that means)

WU - You can kill a revolutionary, but the spirit of resistance is indestructable

* EIA - Wherever death may surprise us it will be welcome, provided that this, our battle cry, reach some receptive ear, that another hand stretch out to take up the weapon and that other men come forward to intone our funeral dirge with the staccato of machine guns and new cries of battle and victory.

Amilcar Cabral - If we are fighting together, then I think that the main aspect of our solidarity is extremely simple; it is to fight.... You must find the best means and the best forms of fighting against our common enemy: this is the best form of solidarity.

Ho Chi Minh - Without the cold and desolation of winter, There could not be the warmth and splendor of spring. Solarity has tempered and hardened me And turned my mind to steel.

Sundiata Keeli (Clark Squire) - I know I won't ever be paroled, but I also know this country won't last as long as all that time.

Weather Jones - Pray for the dead and fight like hell for the living.

Place of the EIA - These so-called revolutionaries, they're always telling us Black and other minorities to wait for the proper time to strike at the enemy. Ah, but we have waited -- centuries. Always at the cost of our blood.

7-15200 PF 02124

✓ Malcolm - We must speak the language of our oppressor, if our oppressor speaks with a shotgun; then we must speak with a electron. (this needs to be checked because it came from an CIA communiqué and was not in quotes so I don't know if it is word for word or just the idea)

Bill - We recognize that the suffering of the world's population is connected to one disease -- the corporate fascist military empire. Resistance to this disease, is the single greatest human endeavor today.

★ CIA - We are coming. First, as the caterpillar becomes the butterfly so the manchild becomes the armed combatant.

George - Waiting passively for the final verdict of history is not making revolution. It flies in the face of revolution. It ignores the existence of bread and circuses, terror from the right and the racism and animalism of the ruling class pigs. It doesn't take into account the fact that they know we are coming.

✓ Bill - Revolutions are uneven. They develop from concrete conditions. Like people, like nations, they are each unique and yet share common qualities. They will not behave according to expectations; they are forced in grinding suffering and resistance.

★ George - We can only be repressed if we stop thinking and stop fighting. People who refuse to stop fighting can never be repressed -- they either win or they die -- which is more attractive than losing and dying. The privacy of politics remains but we must now prepare for armed confrontation. By no stretch of the imagination can we hope to overthrow so determined an enemy without force.

Malcolm - When a person places a proper value on freedom, there is nothing under the sun that he will not do to acquire that freedom. Whenever you hear a man saying he wants freedom, but in the next breath he is going to tell you what he won't do to get it, or what he does not believe in doing in order to get it, he doesn't believe in freedom. A man who believes in freedom will do anything under the sun to acquire or achieve his freedom. And the only reason you and I here in America don't yet have freedom is we haven't yet matured to that stage where we can see this is the real price, or the real attitude or the real approach that one must make.

1,000

George -- He who does not fear the death of KKKKKKKKK out will dare unsent the emperor (Blood in my Eye)

France - America has become a fascist under the diverted eyes of its people who still believe in democracy.

Protein

✓ George - It is an act of love to all humankind -- though the ironic paradox is in this means to save and give life -- our humans will die.

GJ -- We must learn how revolutionary consciousness can be raised to the highest point by stimuli from the vanguard elements.

GJ -- If people are to understand and relate to revolutionary violence they must first be educated into a acceptance of the fact that there is no alternative, or that the alternative is less inviting than a fight.

Jon Jackson -- Go rades ask me sometimes what can we do against "all these pigs." I state it simply -- we put them to death.

Jonathan -- Repression. Do you see the effect it has on the uncommitted? Comrade, Repression exposes. By drawing violence from the heart, the vanguard party is demonstrating for the world to examine just exactly what terms their rule is predicated on -- their power to organize violence, our acquiescence.

Enoch -- Violence committed by the people, violence organized and educated by its leaders makes it possible for the masses to understand social truths and gives the key to them.

GJ -- Their efforts to seriously repress us indicate that we have reached people -- that we are finally in the fight.

A W -- Violence is not supposed to work in America. Police, that is, except the "omnipotent administrator." But this has yet to be proved to my satisfaction since I know that a bomb is a bomb; it twists steel, shatters concrete and dismembers men everywhere else in the world. Why not those made in America? A bullet fired from an assault rifle in the hands of a Vietnamese liberation fighter will kill a pig in Vietnam. Why won't it kill a pig in the place where pigs are made?

1 Enoch -- The time for talking has ended, the time for fighting has begun.

J -- It is not a question of the necessity of violence, but how to organize it to fit our unique situation.

/ GJ -- To postpone our liberation with the excuse that the "people aren't ready" is to under~~stand~~ estimate them; in effect it's like saying they don't have the mentality to act in their defense.

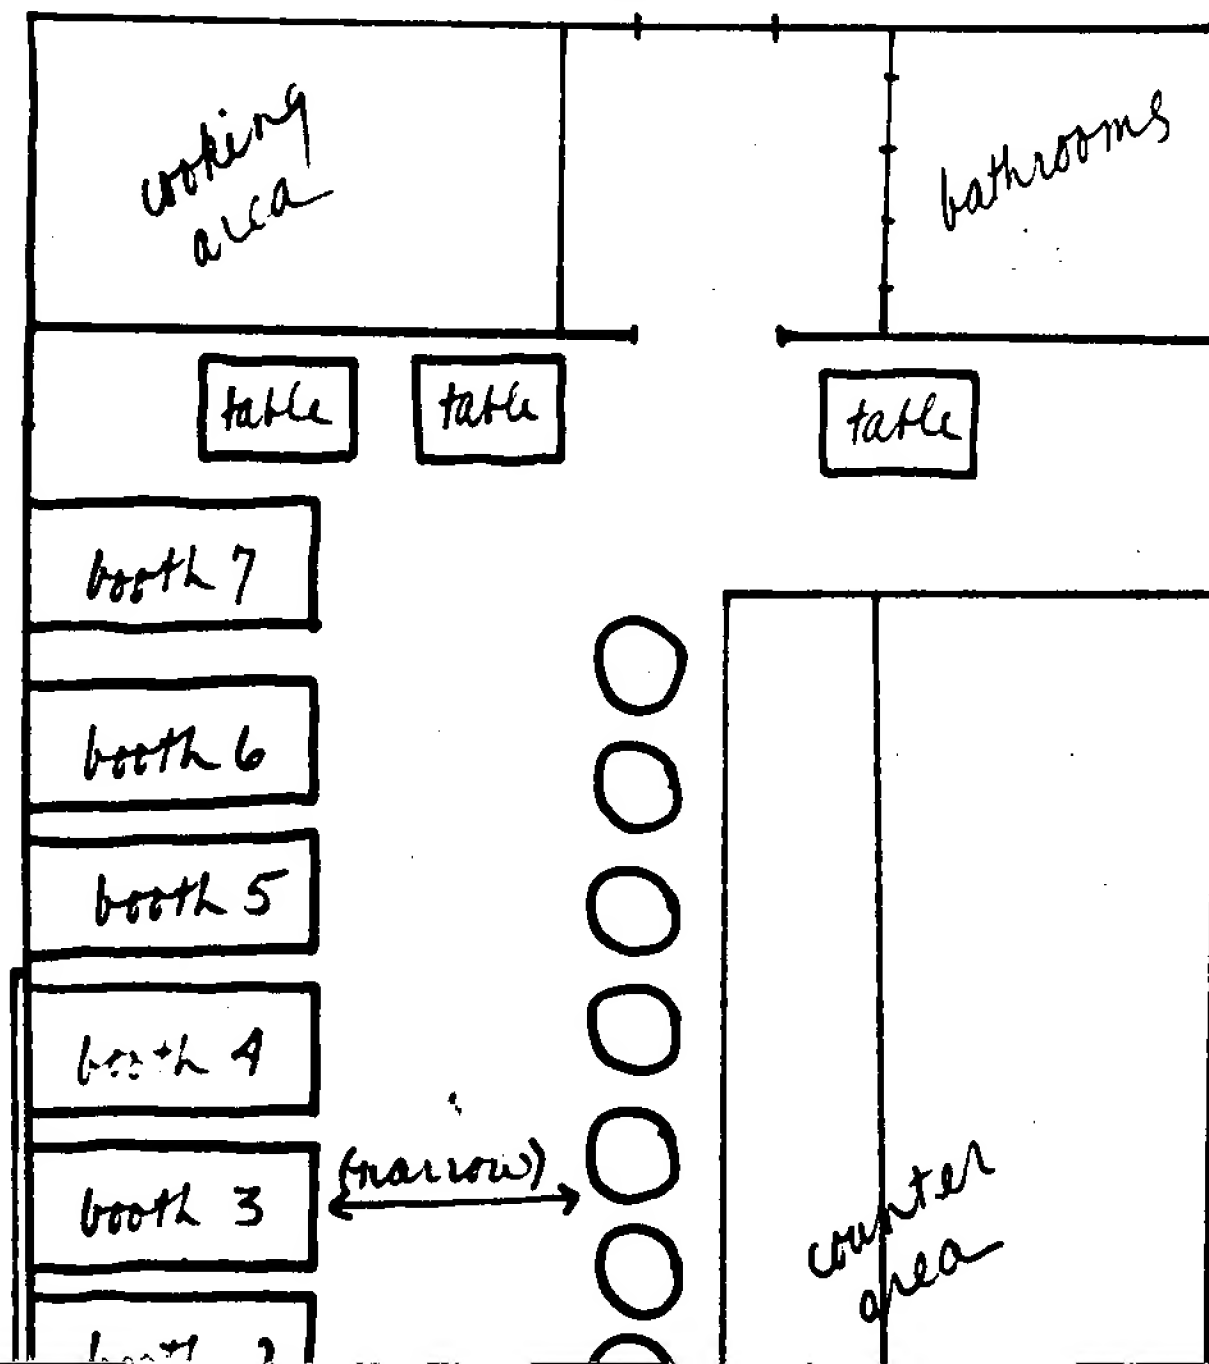

J -- The ultimate expression of law is not order -- it's terror.

W -- The great injustice of this system is that it leaves the oppressed while maintaining security for billions of people.

W -- The last part... killing the pigs... to force

Mother Right.

A NEW FEMINIST THEORY

BY JANE ALPERT

The mail arrived one day and there it was: a long and personal message from Jane Alpert, an activist of the left who had become a legal fugitive more than three years ago. To prove that the manuscript and its covering letter had been written by the real Jane Alpert, they were accompanied by a set of right-hand fingerprints—all five smudges carefully enclosed within the large circle of a female symbol.

There was something incredibly moving in that offer of proof: here was a person so alone, so isolated from her friends and her past life that she must present fingerprints to prove she still existed. For me, in fact, the letter itself might have been a proof enough. (Which is why I write this introductory note—to

explain a personal basis for belief that this document is legitimate.) In her letter to me, Jane recalled a brief meeting of three and a half years before: she remembered the room in which we had met and the clothes we wore. She had been free on bail then, still very much endangered by the charge of conspiring to bomb federal offices.

But it was not for herself that she had come to seek support. It was for Sam McLeville, the man she lived with and the person accused of masterminding this conspiracy to bomb. She feared that he would not be able to prepare his defense properly unless he was out of jail, free to talk with lawyers and friends. So we sat there, making lists of people who might be willing to contribute to his bail. I remember being very, very conscious of her seriousness and di-

rectness and apparent lack of concern about her own situation. After all, she, too, was facing all the enormous pressure that society and the courts could bring to bear. But she never mentioned the danger to herself. And neither did I.

In fact, we said not one personal word. Perhaps I chose not to question her because I did not wish to know whether or not she was guilty as charged: violence toward property, and the risk of human life, was more than I could accept even in a just cause—though I did not then see a resistance to violence as one of the positive values of the women's culture. I let the conversation remain impersonal because I did not want to disagree with the action of this woman whom I instinctively liked. And yet, Jane Alpert, both the person and the political symbol, stayed

SPOTLIGHT ON TERROR

Hunt for Patty: FBI Never Really Close

Eleven weeks ago, *The Times* undertook a nationwide examination of law enforcement's search for Patricia Hearst. The results of that inquiry may disturb not only the general public, but some elements of the law enforcement community as well.

With few exceptions, the primary sources for the production of this article are not identified. They include veteran law enforcement officers and officials in federal, state and local jurisdictions. Taken as a whole, they represent the views and insights of some of the most knowledgeable criminal intelligence experts in the country.

Anonymity, where given, was granted at the request of the source and in the interest of facilitating candor on a story that could not otherwise be told.

BY ROBERT KISTLER

Times Staff Writer

The Hearst case has become law enforcement's haunting nightmare.

Never before, for a variety of complex and heretofore unpublished reasons, has a single case put so much pressure on the nation's law enforcement apparatus.

That apparatus, including the Federal Bureau of Investigation—the largest, most sophisticated investigative agency in the country—has responded by throwing everything it has and knows into the challenge.

... Only, after 496 days of unprecedented effort, to fail.

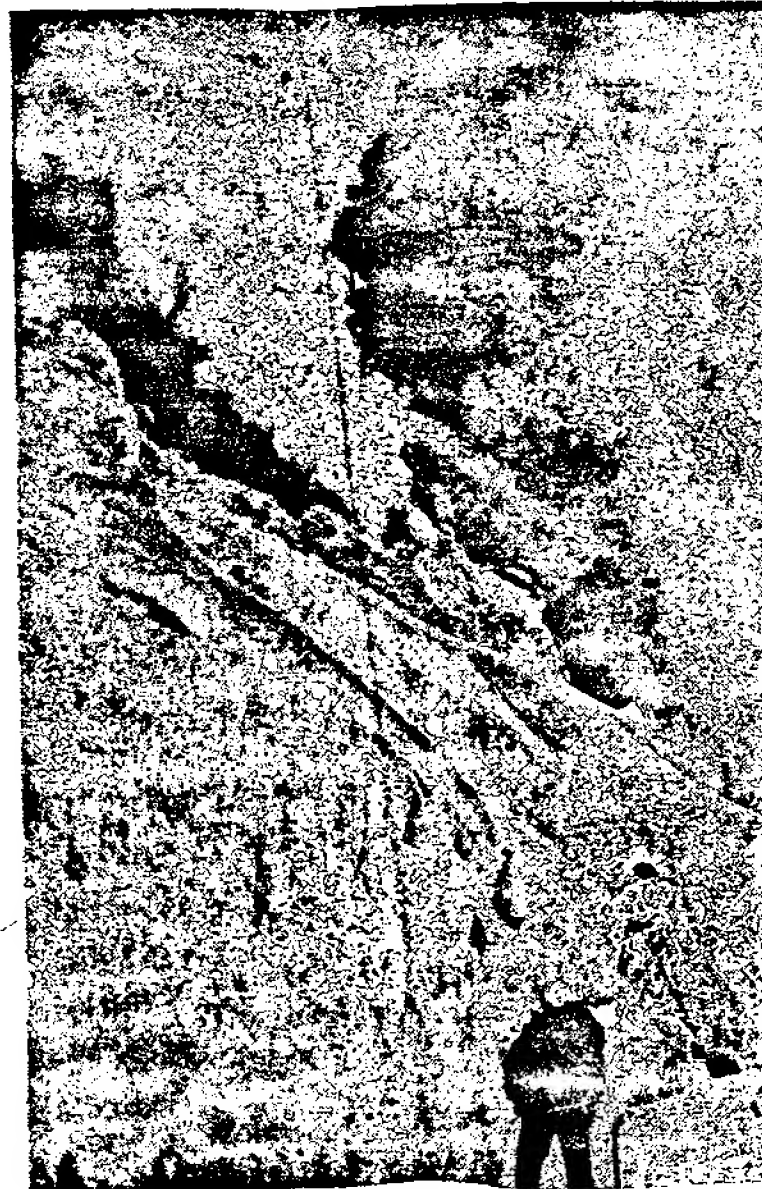

Today, highly placed bureau sources admit the FBI is no closer to finding the 21-year-old fugitive than it was when the bizarre and aggravating case began more than 18 months ago.

Of far greater importance, veteran criminal intelligence experts say, is what the Hearst case has shown about the law enforcement apparatus itself:

That, as matters stand today, there is no agency, or combination of agencies, capable of dealing effectively with the terrorist-revolutionary movement in the United States.

The Hearst case has not only documented this, many insiders believe, but—because of the intense pressure the search has exerted on the law enforcement apparatus itself—has acted as a unique crucible:

It has, instead of cementing long-existing cracks in law enforcement's collective armor, dissolved many myths the apparatus believed about itself.

HIGH INTEREST—David Frank of U.S. Geological Survey studies one of the new fumaroles, or vents, in crater.

Q 1862 - 1932

Sir

Part one

Your story about me is wrong. I am not alone and not in hostile environment. I eat three meals a day, not fear of anybody turning me in.

My father and Mother took off the reward, I am not in a prison, this summer I went to South Dakota, the Black Hills and then the next day I went to Canton to see the Football hall of fame, is that hiding underground

THE PERSON THAT I STAY WITH KNOWS ABOUT ME AND NO MONEY WORRIES THEM..

I HAVE A BABY NOW FROM MY LOVE WHO DIED, SO LEAVE ME ALONE,

TANIA

YES THE SHEETS ARE CLEAN NOT DIRTY....

CONFIDENTIAL

PLEASE MAIL
EARLY FOR
CHRISTMAS

Washington, D.C. 20535

Dear Super Pig,

George Clifford, writer of "The FBI's Search for Patty Hearst" in the December 1974 issue of Argosy magazine, was right. People on the run do often read stories about themselves, and in this case, it has happened again.

But you and you're flunkies are wrong if you think a sell-out bourgeois article in a bourgeois controlled magazine is going to cause me or my friends to turn ourselves in.

Clifford, yourself and your flunkies must think my friends and I are stupid or that we're not sincere about what we're doing. How could you puppets of people like my family and the Beckhofellers think that just because Fidel Castro used the courtroom as a "forum" that my friends and I are going to turn ourselves in--just to have the "opportunity" to use the courtroom as a "forum?" Fidel didn't want to be in the courtroom when he wrote his masterpiece, "History Will Absolve Me." But because he was caught, only after he did everything in his power to escape from the captivity of the enemies of the people, he used the unfortunate situation as an educational experience for the people. My friends and I will do our best to prevent a "History Will Absolve Me" Situation from arising in our cases, and if such a situation does arise, we hope we'll be able to deal with the situation in as revolutionary a manner and as magnificently as the people's hero, Fidel Castro, did.

So don't pat yourselves on the back for the Argosy article bo-

cause it didn't work. The psychology behind it failed. We know we're revolutionaries. We don't doubt that at all. And for that reason, we don't have to run out and do something just because Fidel, Che, or other revolutionaries have done it. (And you are wrong, Che is still a beloved hero of the people and always will be.)

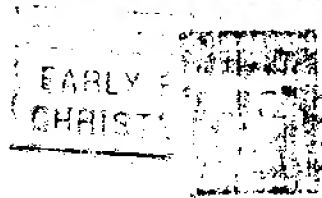

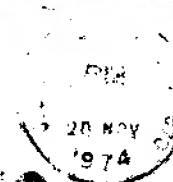

You inhuman clods fail to understand that true revolutionaries deal with their specific situations according to the realities of the times ~~that~~ they are living in. And they do not blindly follow the actions of other successful revolutionaries.

The realities of the times calls for us to continue hiding and letting you brainless puppets run around making fools of yourselves in front of the world's proletarian majority. No matter how much propaganda you put out, you can't fool the people. We're not unthinking robots like you. I personally am not worth the \$5.2 million or the century-and-a-half of man-hours you clods are spending in trying to locate me. The people know it, especially now that capitalism is dying throughout the world. You're only adding fuel to capitalism's destruction by your actions. So the longer I'm confined, the more you'll waste of the people's money needlessly, and the more people will become more convinced than ever of the inevitable decline and fall of capitalism.

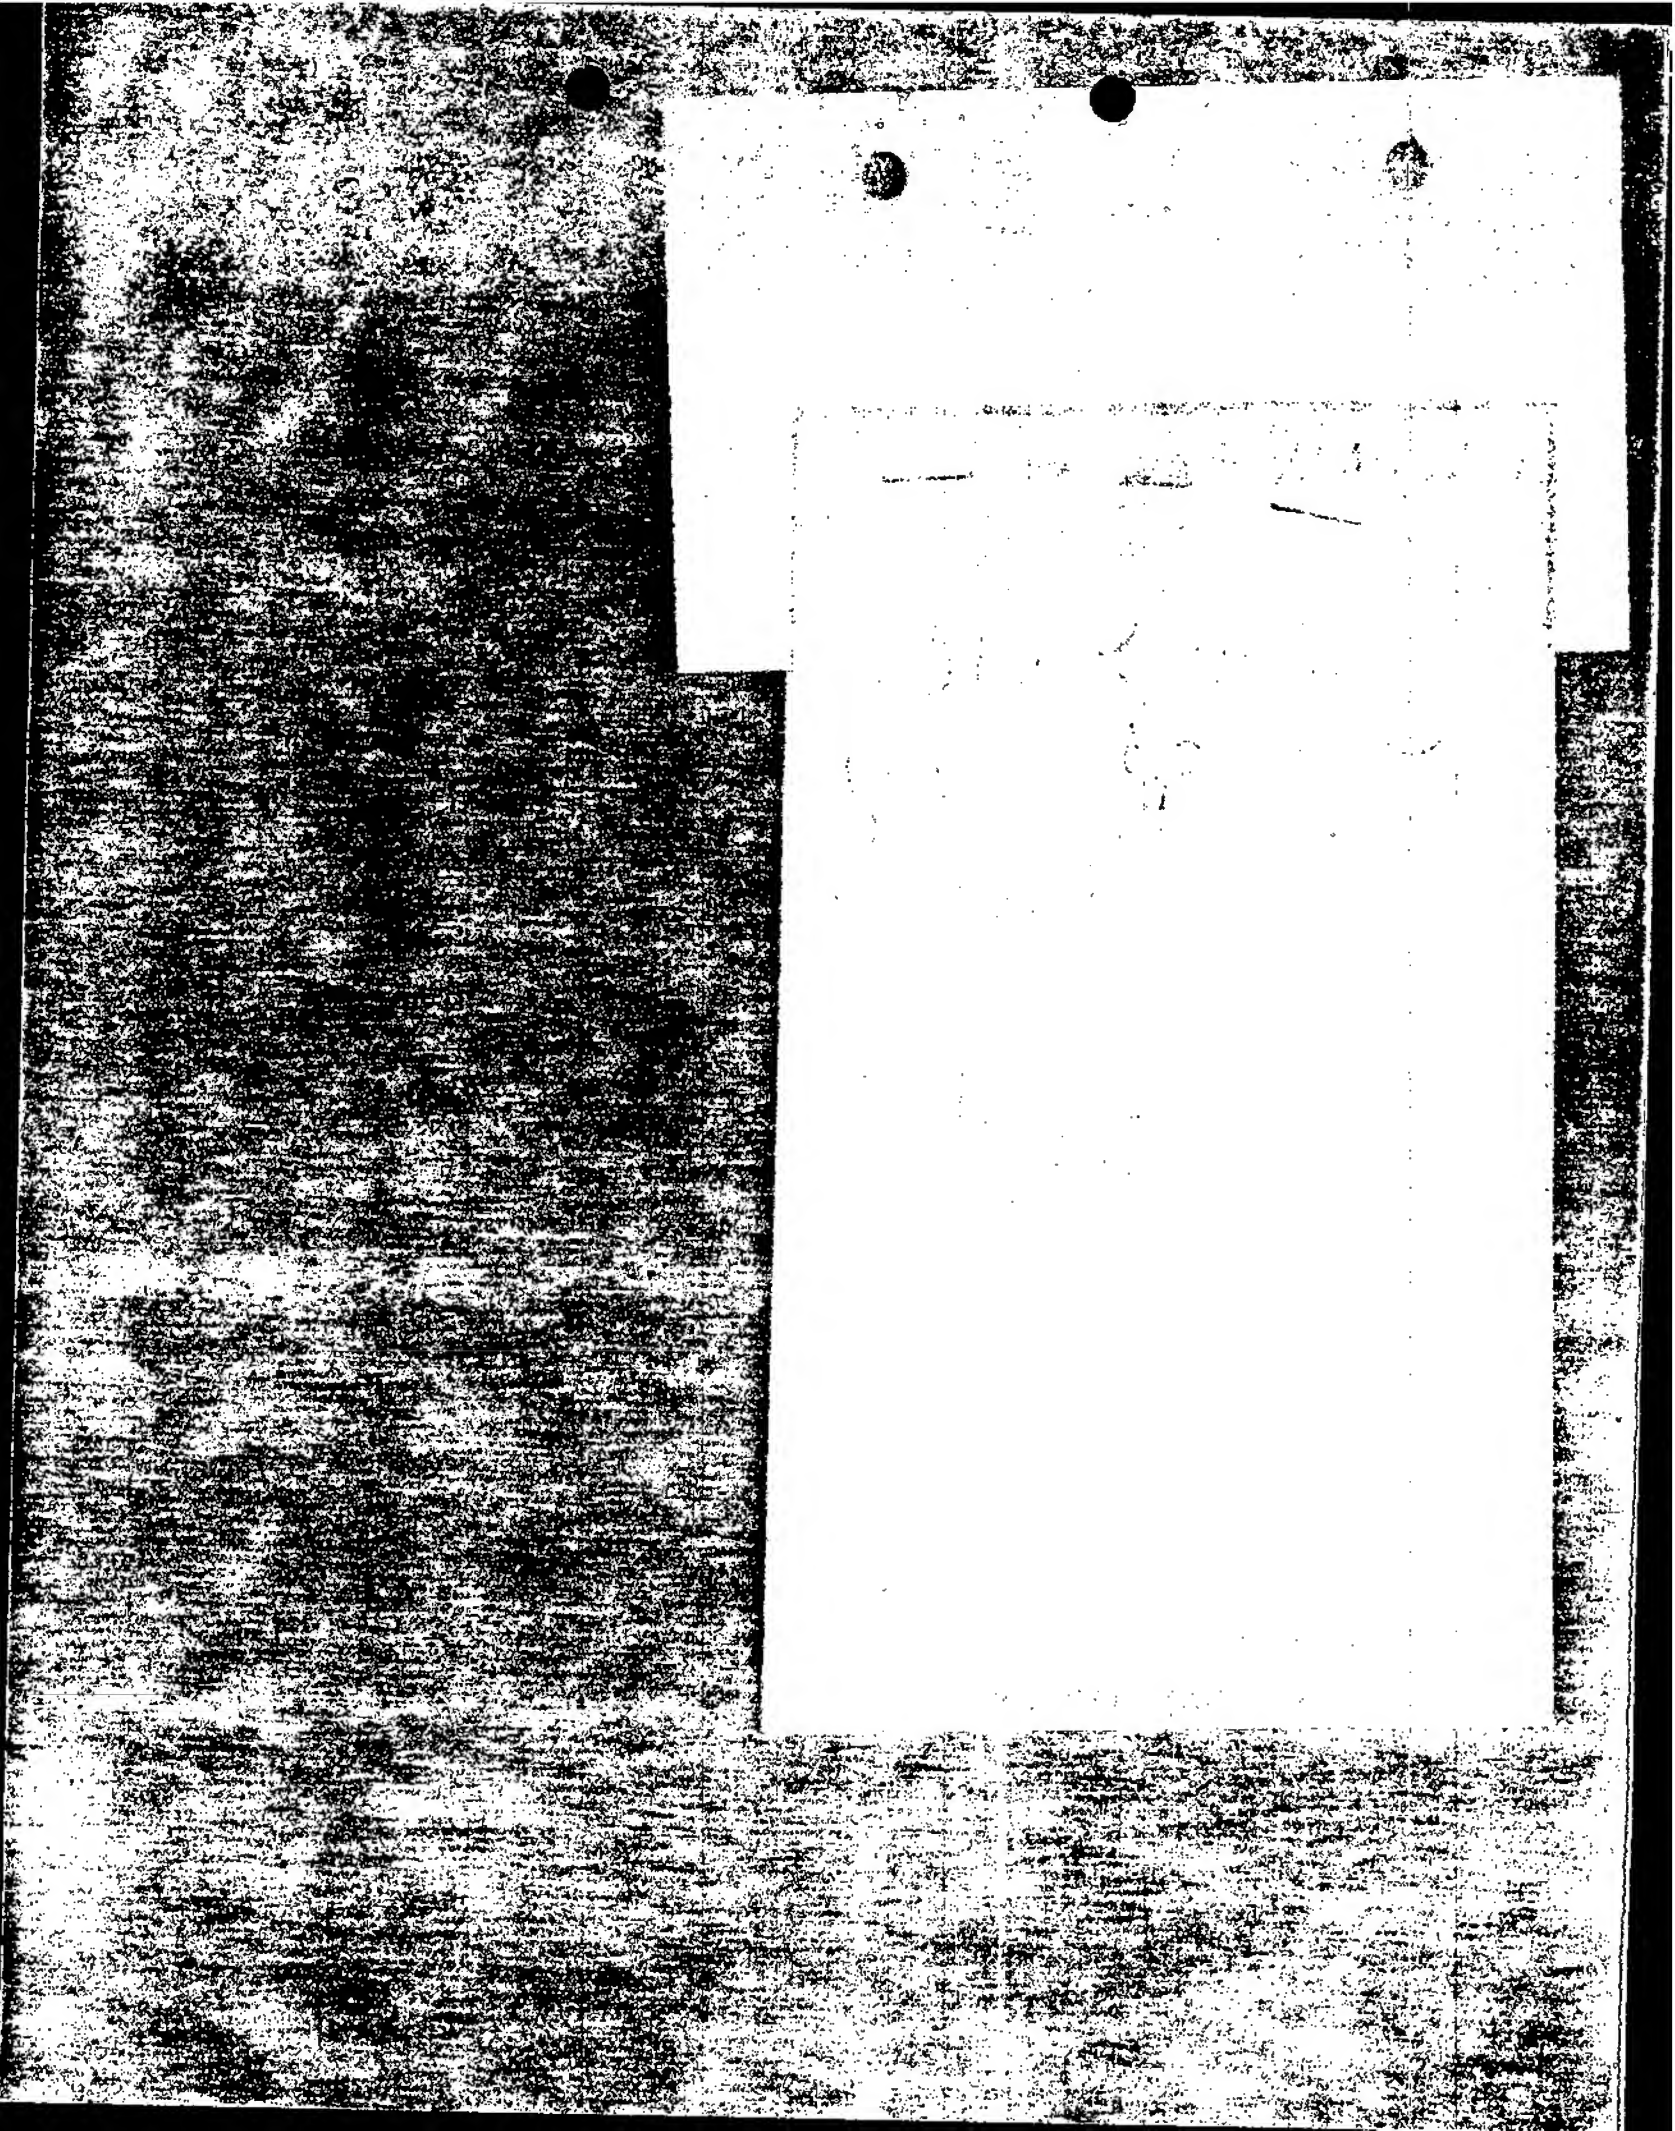

It's ironic, but you clods are helping educate the people, my friends and myself about the urgency of a revolution in the U.S. Your idiotic behavior just convinces us further and makes our victory stronger. So thanks for helping speed up the process for a true people's revolution in the U.S.

Dear Duckfeather,

How do you like that
name? How about Judge Duckfeather?
Not much going on here, Am lonely,
bored, neglected - just in need of some
love & affection. I don't think there's
anything I miss more than a girl.

That means just the sexual aspects
of it, but the companionship don't
fester with a girl today, or yesterday,
and I hope I feel the same way
tomorrow. I got a letter from my
sister a few days ago telling me
my 4 yr. old niece decided she would
stick a hairpin & stick it in a
electric wall socket. Fortunately, she
wasn't killed. She received 1st & 2nd
degree burns on 3 of her fingers.

Let her want stick a pin in
another socket. My dear sister probably
had a fit. So what have you been
doing with yourself? Are you living
at home temporarily or what? Are you
working or just loafing? Did you
have an in-law - friend or are you
becoming a celibate? I like to ask questions.

Mr. Floyd Buzier (editor)

Aug. 25, 1974

Hey Man, I'm on a Greyhound rolling toward the big city, New York. You're not gonna believe what I've been up to for the past few months when I tell you but then on the other hand you might believe it since you know all the wild things I get into.

Would you believe that your old pal was in the S.L.A.? Right! The same S.L.A. that all the papers are looking all over the world for. I'm the last one and I've got all the loot or what is left of it and I've got the name of a dude in the city who has a coke connection with some Cuban. I think he sold Cubans some spec armory.

Let me give you the story.
I was cruising down the
strip in my old VW microbus
when I see this dude hitching
so I pull over to give him
a lift and all of a sudden
there are 2 chicks with him
and he says something like
we are the S.L.A.! and he
throws down on me with a
38. I just about shit but I
drove off on down the road
and they tell me they aren't
gonna blast me if I'm cool
so I tell them I'm cool and
he puts the gun in his belt
which showed how dumb he
was because I could have
jumped out or grabbed for it or
anything. We rapped awhile
and I can see the guy is
nervous as hell and I begin

to think maybe these dudes
are the S.L.A. so I've been
hearing a lot of shit on the
radio about it so I ask them
if they are interested in getting
hid because I agreed with the
S.L.A. and would help them out if
they really are who they say and
not some weirdos. I guess they
were real desperate because it
only took them a couple of minutes
to agree after I told them about
an old miner shack I'd found
up in the hills and had fixed up
for hunting and ducking out. Did
you ever go up there with me to
that little place in the Klamath
Mountains? I guess Redding is about
the biggest place around up there
and there are a lot of little towns
but who'd look up in those hills
for the S.L.A.? Nobody did!

ME 10/11/72

Well there in the bios they start introducing themselves and being real friendly and I met Patty (TANIA) Hearst and Bill and Emily Harris and they were telling me about all the shit they had pulled off but now things were getting hot so they had to split. They were pretty nice but real reptile so I passed around a few joints and in a little while life was a groove again.

They had all kinds of fuckin' money! I hauled ass (55 mph) up the interstate and never got checked by the pig. We bought about a ton of food, cloths, blankets, ammo and some guns for hunting and rolled on up into the mountains the next day and that is where I

I've been for the last few months. Me and Bill would go down to Redding for supplies occasionally and one time we got some dynamite grass too. The shack was just one room so we were all kinda on close quarters there and I got real friendly with Tonia and one thing led to another and pretty soon we was fucking almost everyday. Hey! She was a good peice of ass and we hit it off good but she was moody too and like independent and that pissed me off because we was like living so close and all like too many rats in a box and we were all getting edgy and one day I asked Harries if he was gonna burn some pig ass for what they did to the other SLA people and Betty's lover Willie. She'd

get depressed about that clown
and that bothered me, after
all he was blown away and
she was fucking me now not
him. Anyway, Harris said
they were all washed up and
it would be suicidal to try to
pull something now. I told him
he was a chickenshit because
they had said they'd kill five
pigs in reprisal for each SLA who
was killed. I wanted to get some
action! They were all so damn
deflated and it was getting
worse all the time. So about a
week ago I say, look I'm
tired of sitting around doing
nothing and I guess I'll split
pretty soon. You can imagine
that the dude got paranoid as
hell and said I couldn't leave
and I said that I wasn't gonna

spend winter freezing my ass
off even if Hearst swore to fuck me
to death! So later that night
Harris and his old lady are outside
while me and Hearst are getting it on
and the night is real quiet and I hear
Harris say, we might have to get rid
of Sam, and then I get paranoid.
I feel like a trapped animal all of a
sudden. You know. So later, when
me and Hearst get done Harris
and his old lady come back in
and they want to fuck so me and
Hearst go outside for awhile.

We sit out on the rocks and rap
and soon Hearst says she is
going to use the shithouse and
I remember my kit in the
bus and I shoot up some
really hot crystal and I'm
speeding and I think about
what Harris said and I'm

getting super paranoid so I
jam one of the 38's under my
jacket and after maybe 10
minutes Tania comes back and I
ask her about her future plans
and she is as usual noncommittal
like she don't know or won't say if
she does know. Well, am I the
pig? She won't tell me anything.
So I tell her that I think Harris is
gonna waste me and she says,
Nah he wouldn't do that unless
you crossed us or something.
Well I ask how Hearn, what's
a cross? Leaving when he
don't want me to. Maybe. I start
freaking out in my head. After
some more time Emily comes out
and heads for the shithouse
and Tania goes inside - maybe
she's telling Harris what I said.
Then Emily comes back and

goes in and I'm alone out there with my mind racing telling me I'm gonna get zapped any minute so I get up and go in and Harris is sitting on a box loading his own .38. We had these nice Colman lanterns and the whole inside was lit up. I say, Jesus! and I pull out my Roscoe and blast him off the stool. Then I sort of went nuts and I shot everyone until I ran out of bullets. I took up Harris gun and looked around to see if anyone was gonna get me and Hearst was moaning and trying to get up and get to me so I blasted her about 3 shells in the chest and that finished her. The other two was dead already. What could I do? Did I have any choice really? No, not really.

I was really freakin' and I no way could sleep now so I started packing the bus and getting ready to move out. By morning I had all the shit packed and I put the three of them in the bus and shit they were stiff as fuckin' boards by morning and I had to drive about an hour to this old mine I know about which goes practically straight down about a mile it seems where I could dump them. Then I had to haul them about a quarter of a mile from the dirt road I was on to get them there and that was a hell of a job in itself. Stiffs seem to weigh a ton and they are ridiculous to have to carry. I spent all day dragging them up to the mine and I dumped them in and I heard them splash at the

about 1000. I was in the
house at the time. I was
in the kitchen at the time.
I was a lonely kind. After I
the house, I was in the
almost 10 years. I figured I'd better
get rid of everything.

Then I meet a dude I had been
in school with and he puts me on
to a coke deal. When I tell him I
have some money to invest, I
can get a key in Mexico for about
2-3 thousand bucks. This is pure
high grade coke! I know I can
dump it around town for about
\$20,000 a key. Can you do this—
I get 3-keys for 2 grand each

a total of 6 grand. If I get it home OK. I eat each buy 3 times so I have 9 buys of still pretty good stuff which I sell on a cut rate of 15 grand each. That gives me a 135,000 return on my original six or so and I retire compliments of the SLA. If I get busted - well - that's life but it's worth the risk and I'll have almost 4000. for hush money, payoffs and expenses. I hear they have a couple of customs people in their pocket and maybe I can find out who or something. I can rent a plane and fly the shit out if I have to. I still have my license.

So listen team, when you get out see if you can look me up somehow and if I'm flush

I'll help you out. Tell your chick
"Hi" for me if she remembers
me. If things go right I may
get me one of those big sailboats
we talked about and just cruise
around and fuck ourselves to
death. We could sail around the
world and get an all girl crew.

Well I hope you get out soon.
I saw Gockie and she had your
address. You move around so much
I hope this finds you. Ain't no
place you can write me for now,
I'll have to catch you.

Don't show this letter around. I just
know you're crazy like me and would
enjoy hearing the story. You know me
good enough to know I don't bullshit about
stuff like this, right?

We're rolling down the eastern
slope now heading into Denver.
Good-bye to the Rockies, hello-

to the flatlands.

Hang in there ole buddy. I'm
holding down the fort.

Larry

To The Editors of the Niagara Gazette
and to the people of Niagara Falls.

SEP 8 1974

Tanya is gone now, but for how long?
Many believe the S.L.A. is gone
forever. Since their break-up in Los
Angeles, many believe the S.L.A. and
Tanya are dead.

As one of the top disciples
of this great band of warriors;
I say to you - If you think these
statements are true, you are
wrong.

I do not see why people are
against them; for they are heroes
of our time.

If ever I had a chance to
be a part of this organization I
would join, without thinking twice.

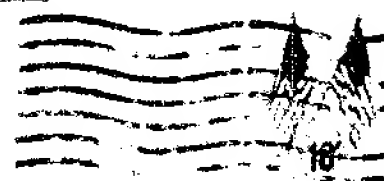

I already know my answer.

They will return and when
they do, I will pray for them,
all the way. Power to the
S.L.A.

An S.L.A.

the twice means the same in
long.

From the perspective
maintaining a more or less
material assures
unstable price fluctuation.

The it is particularly important in one-crop
countries that have long and unhappy experi-
ence with the boom-or-bust vagaries of the
international market.

In a free market, when there is strong
international demand and lagging supply,
there is a boom. When supply exceeds de-
mand, prices drop.

If supply can be controlled by prior
agreement among the suppliers, fluctuations
can be averted and prices pushed up.

Coffee is an interesting case in point. In
the past four months, wholesale coffee prices
have risen from 10 to 20 percent, with many
processors passing along success.

We are entirely in the hands of the
producers, says the vice president of one large
coffee processor. "They are making
coffee faster than the world
can absorb, and prices are going up."

That is the mastermind for product
Coast to Coast to restrict
production.

Billions of people are shorted over world prices
jumped from 42 cents to 75 cents per
pound in less than two years. They call it the
"coffee crisis."

Consumers could find other words for it.
One of them is cartel.

The association of coffee producers is a
cartel. So is OPEC.

almost, actual World in suddenly full of
would be cartels.

Chile, Peru, Zambia and Zaire are trying
to control them they produce 70 percent of the world's
copper.

Bolivia is toward deciding Malaysia go a long
world market how much tin they produce each year.

Sugar producers have their association.
Jamaica and Guyana are hoping to spearhead
creation of a banana cartel. Latin American
banana producers have just concluded a
meeting to set up their own organization.

In the free industrial world, cartels are
as an affront to the precepts of free trade and
free enterprise. In most industrial nations
cartels are illegal, the subject of reams of
anti-trust and monopoly legislation.

are not like. There is no international body
to draw up laws or to enforce them.

There are rub. Cartels are becoming the
latest thing in international economic fashion.
Some are more effective than others — you
can always live without bananas, but it is hard
to live without oil — and they are so
annoying.

And there is not an awful lot that consumers
can do about them in the short run, other
than to reach deeper into his pocketbook to
pay for that gallon of gas or that morning cup
of coffee.

The suit is against Richard Bern, general manager of the San Francisco Department of Social Services.

One of the complaints is a 104-year-old, blind woman, Fannie Maxson, who lives in San Francisco.

Miss Maxson, according to the suit, was receiving \$300 a month with which she hired a live-in attendant Katherine Moore.

The suit said that on Oct. 15, 1973, Mrs. Moore was told by a social worker that Miss Maxson's home attendant grant was being cut back from \$300 to \$100 a month.

The complaint said it was determined by the county that Miss Maxson could only be allowed funds to employ an attendant for three hours

The suit was brought by the San Francisco Neighborhood Legal Assistance Foundation and the California Rural Legal Assistance Office of the National Senior Citizens Law Center.

mean. There has a
been a closer relation be
tween the art of California
and that of the Far East
than exists elsewhere in this
country. Seldom has this
correlation been suggested
with such elegance of style
and depth of spirit as in
Bruce Connor's current ex
hibition.

Buy

If farmers produce record
crops and turn out more live
stock next summer, consu-
mers might see prices level
off and possibly decline by
year end, officials said.

Reduced supplies, higher
farm prices and rising costs
of getting food from farms
to consumers were blamed.

The outlook for food
prices after the first quarter
is much less certain, the
said. Upward pres-

Bill Would Aid U.S. Fisheries

ABERDEEN, Wash. (AP) — The nation must be encouraged to protect its fisheries and adoption of a better fishery management system, says Senator Warren Magnuson.

Virgin Mary In a Comic Book

Washington

Senator Richard S. Schweiker said U.S. foreign aid funds have been used to circulate in Panama a birth control comic book picturing the Virgin Mary on the cover.

It bears the caption, "Little Virgin, you who conceived without sinning, help me to sin without conceiving," the Pennsylvania Republican said Wednesday.

Schweiker protested "this outrageous and distasteful use of U.S. tax funds" in a letter to Matthew J. Harvey, assistant administrator of the Agency for International Development.

Schweiker said Harvey confirmed that the Panamanian Health Ministry got \$100,000 from AID to buy 10,000 copies of Los Supermachos, a Spanish language comic book published in Mexico.

(00)

Yes, the comrades who follow her
comrades murder and kill the guilty ones.
who the guilty ones are.

They are the ones that murdered six
of her comrades in Los Angeles.
Including her mother and only love.

In a taped message she said her
comrades didn't die in vain and that
she was strong and determined to fight.

And fight she will, and if by
any chance she needs more
comrades there are more like me.
In Niagara Falls who are willing
to die for the S.L.A.

They are respected and loved by many
because they are a great land of war.

The S.L.A. WILL LIVE FOREVER

"A discipline"

To The Editor of the Washington Post

The other day I wrote you a letter
and you refuse to print it.

I warn you I will not stand
by and see this happen again.

Unless this following letter is
printed something dreadful will
happen to this dump you call a city.
This is not only a threat, but also
a fact.

"a disciple"

I love you daddy, and want to see you. No one knows that I am writing this letter. I am very nervous at this time. They have been mis-treating me. William, Emily, Kalota and Biscoomb are making plans to blow up Hall of Justice. I can't tell you where we are hiding out. But I can tell you that they are willing to give up and ready to die. I am wearing a black wig and lots of make up. So if the police recognize me please have them to arrest me. I am so nervous that I am crying. I am not ready to die.

Hi. Thought you'd hear the things. Anyway, thanks for
the letter! Let's work on it. I'm trying to get
back. It's 4:30 AM and the streets are quiet. I'll
try to get you in Berkeley contact. Do you know Steven
Wood? Our staff lawyer says you're criminally innocent but
should stay in Okinawa. I have no opinion as to if my
files are fair. Come up with a black box and you'll find
more going for you boy.

A MESSAGE TO THE PEOPLE FROM THE PEOPLE'S ARMY TO THE WORLD.

"...I am a soldier in the people's army..."

I have chosen to stay and fight..."
(TANIA)

PEOPLE:

My comrades and I are active revolutionaries of the Symbionese Liberation Army. Our goal is to put an end to the fascist in our country. We wish no harm to the people, we are children of the world, we all want peace to the world but FIRST! We must smash the fascist pigs that roam our kingdom! We must all join together to stop the fascist stampede. Spread the words of our leader! "Down with the fascist insect that crawls among the flock!"

Thank you!

Field Marshal, Zornig Esel
(People's Army)

Safety keep flames away from tanks
no leakage! Do not bump, knock over tanks.

Welding w/ acetylene + oxygen.

make sure all connections are leak proof.
(listen + feel for leak)

* make sure ^{welding rod (torch)} valves are off when testing tanks for leaks.

5/1/24
Rw

Turning ON

very small amt. ACETYLENE.

ignite w/ sparkers, or match

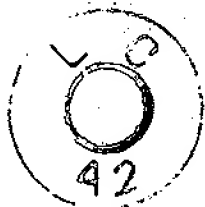

turn acet. up until you stop getting black carbon particles from the flame

Add oxygen slowly until loud flame

turn down acet. + then oxygen too -
to get desired quiet flame.
w/ short blue flame

more acet → longer blue flame

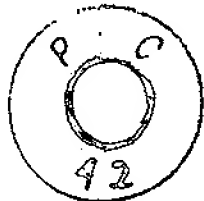

more oxygen → noisier flame w/ short spattering skin

L C = Lake City Ordnance Plant

42 = Manufactured in 1942 (Dates run roughly from 1942 to 1960s are all may be corrosive)

Fully jacketed rounds are original military loads.

P C = (Pacific Coast ?) Ordnance Plant

42 is all I've seen (production probably stopped with WW2). Possibly Corrosive.

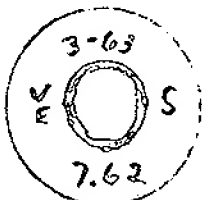

These are all fully jacketed original military loads.

W.R.A. = Winchester Repeating Arms (Company, New Haven, Conn.)

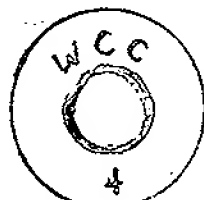

43, 44 are all I've seen (prob. discontinued in military after WW2)

Original military loads - Fully jacketed

Probably European - Original Military load, Fully jacketed

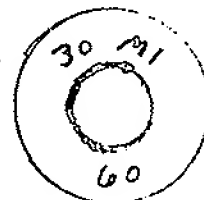

7.62 = Metric equivalent of .30 caliber (diameter of slug)

WCC = Western Cartridge Company

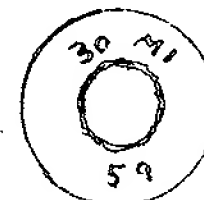

4 = ? (possibly made in 1944)

Original fully jacketed military loads

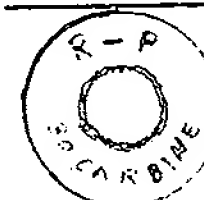

30 M1 = .30 cal. - M1 carbine

Made in 1960 in Brazil. These are poor original fully jacketed military loads; usually quite filthy

Same as above but a little worse. There are some '59's.

R - P = Remington - Peters

30 CARBINE = .30 caliber M1 Carbine (standard designation on commercial ammo.)

This is original commercial hunting load with large, hollow, soft point. This is prob. the nastiest round we have. (Watch for jamming)

FRONTIER = Frontier Cartridge Co. (Grand Island, Nebr.)

Commercial small soft point - some hollowed

On one plaque in the trophy case are the names "in memory of deceased active members" of deceased active members.

During the month of October, 1973, the Golden Gate area team aided in 53 accident calls, 128 stalled auto calls, six reports of fire, 14 tow-service requests, 91 requests for information and 60 calls listed as "miscellaneous, such as for dead dogs."

These calls, incidentally, came directly to the headquarters station. Many other calls undoubtedly taken

ers were undoubtedly attracted individually by active or associate members from their cars or homes.

The group speaks proudly of a successful recent Coast Guard rescue effort in which the Coast Guard sought and used the REACT communications network.

Every call coming into the headquarters is treated. This day Marshall was manning the radio room. The

RESTAURANTS

CITY OF SAN MATEO

EL CORPUS DRIVE

2901 Corpus Drive
341-7464

Unusual architecture of stunning design and a fabulous view. Featuring seafood, steaks and salads. Luncheons and dinners, entertainment and dancing nightly. Plus a speedy cafeteria.

GREENWILLON RESTAURANT

Benjamin Franklin Hotel
44 E. Third Avenue
344-2517

Offers breakfasts, lunches and dinners. Always 5-8 daily offerings in addition to the regular menu. Muffin and desert specialties.

BLACK ANGUS STEAK HOUSE

477 E. Ninth Avenue
342-4336

Featuring the West's finest beef. The standard of excellence is yours to enjoy, when you dine at the Black Angus. Their newest addition is a stainless steel dance floor!

REARRELL'S ICE CREAM PARLOUR

100 Boat Road
345-1894

Specialty ice cream specialties. Dillontoppen sandwiches, juicy hamburgers, old fashion candy and birthday parties. For a large dose of happiness, come to Rearrell's.

MURPHY TIGER

320 S. El Camino Real
342-7722

One of San Mateo's finest new restaurants featuring their seafood bar. An elaborate atmosphere complements their breakfasts and dinners. Entertainment and dancing nightly.

LA CROIXE D'ALSACE

65 E. Third Avenue
347-5939

San Mateo's French cuisine, whose authentic Alsatian specialties are legendary. Lunch, dinners every day except Sunday.

THE LANAI

4070 S. El Camino Real
345-1243

Enjoy an "Evening on Hawaii" with delicious foods of the Orient. American steaks, chops and old Indian curries with authentic exotic tropical drinks.

MADONNA'S

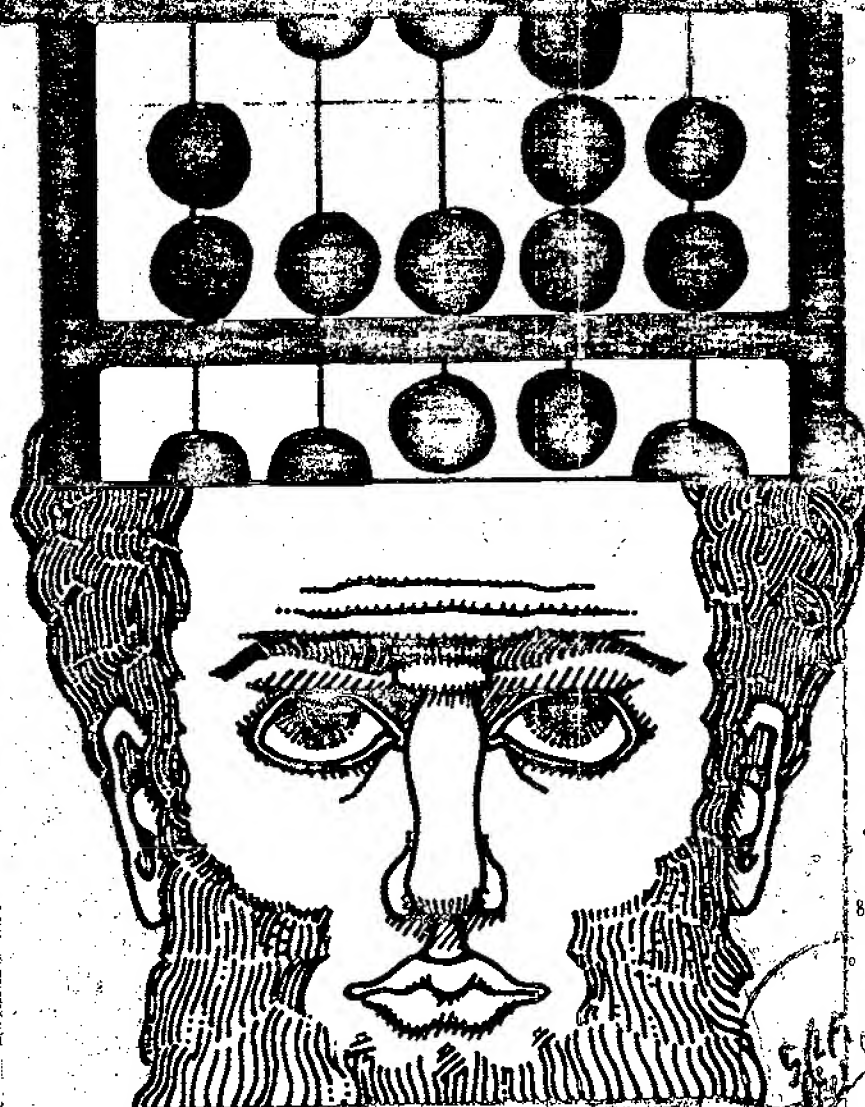

1420 S. El Camino Real
345-5224

Home of the "Big Mac". Fast, courteous service in new delightful atmosphere.

THE ROUND TABLE

Third Avenue & B Street
342-5549

Authentic early-English plans. Lunch, dinner or take-out. King Arthur's Tournament sandwiches and draft beer on tap.

University of California, Berkeley**

FRESH GINGER ROOT

Wash, peel and grate, mince, crush or slice thinly for seasoning in sauces and soups or cook it with meat dishes. It is also used in salad dressings. It has a different flavor from dried or ground ginger. If you wish to make substitutions in your recipes, here are approximate equivalents:

- 1 t. fresh ginger equals 1 t. dried ginger root*
- 1 t. fresh ginger equals 1/4 t. ground ginger
- 1 t. fresh ginger equals 2 t. candied ginger**

* Before using dried ginger, simmer it in water about 10 minutes or soak several hours until it can be easily sliced. Once softened, it will keep only a short time.

CPRU #29

** Before using candied ginger, wash off the sugar.

7-15200 01599

HAKUSAI, CELERY CABBAGE or CHINESE CELERY CABBAGE

Use raw in salads or slice into 1-inch pieces and cook briefly 3 to 5 minutes so it is still crisp. Serve buttered or creamed. It may be fried by chopping it coarsely and placing it in a skillet with a small amount of oil or melted butter. Do not add water! Stir-fry for 2 or 3 minutes, season and serve. Sugar and vinegar may also be used for seasonings and the natural juice may be thickened with cornstarch. It may be added to sukiyaki instead of spinach or other green vegetable.

SHIITAKE or DRIED MUSHROOMS

These can be used in place of fresh mushrooms but they have a slightly different flavor as a greater variety of mushrooms are used for drying. Soak them in warm water until soft before using. Drain well, trim off the stems (usually very tough), cut the caps into small pieces and use in recipes calling for mushrooms. They can also be added to most recipes without preliminary soaking. Cut them into small pieces with kitchen scissors discarding the stems.

CPRU #29

SU

1 c. dashi or meat broth

2 t. toasted sesame seeds*

1 t. salt

Prepare gobo root as directed, cook until tender in the dashi and shoyu sauce. Drain and simmer 1 minute in a sauce made with the vinegar, sugar, MSG and salt. Serve garnished with the toasted sesame seeds. 2 or 3 servings.

*To parch sesame seeds, place them in skillet on top of stove, cover tightly and heat with shaking until they pop.

OPEU #29

Put oil and ginger in a pan and fry for 1/2 minute. Add liquid and the other ingredients except the egg. Simmer for 1 or 2 minutes, turn off heat and pour in beaten egg very slowly stirring gently with a fork but only enough to break up the threads. The egg should cook in strands as it is poured into the hot soup. Serve immediately. 6 servings.

OPEU 29

; cut hearts into $\frac{1}{2}$ inch strips; toss w/ garlic salt,
 flour, brown lightly in oil; add broth; cover
 ~ 5-10 min; combine soy, catsup, vinegar,
 & cornstarch - add to ch, stir & cook until

Vote for and Keep in Office

Patricia Judge
~~HARRIS~~ HINES

STATE COURT OF COBB COUNTY

QUALIFIED - DEDICATED - EXPERIENCED

DEMOCRATIC PRIMARY - AUGUST 13

Patricia Hearst

A girl seen in Pa.
Hearst was seen moving
into a house on Calvert St.
N. W., on the left side of
the street (heading towards
Stoddart Elementary School from
Wisconsin Ave.) a few doors
before the corner of 39th St.
and Calvert. This was on
Thursday, June 27th.

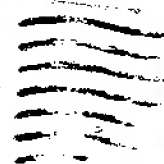

Also moving in (or helping)
were two men, described to
me as way-out looking.

The girls hair was
bleached blond and cut short
with dark roots growing out.

In the truck which they
used to move, were a few
odd pieces of furniture and
many many stacks of small
boxes, far too small for
clothes.

(over)

one person who told
this to me is afraid to
be involved; and I am too.
However, I did feel
that it should be reported.

TO : Mr. Cochran *MC/E*

FROM : M. J. Stack *MS/E*

SUBJECT: HEARNAP

Purpose:

This is to recommend that the attached two boxes be filed as bulky enclosures to captioned file.

Recommendation:

That this memorandum be forwarded to the Records Management Division for appropriate processing.

Details:

The enclosed two boxes contain intra-Laboratory Chain of Custody Records, Laboratory worksheets of examiners in the Physic - Chemistry Section, photographs and other referenced-type material which will only be needed in connection with subsequent court trials.

The boxes do not contain any original correspondence or original enclosures to official Bureau correspondence.

Re San Francisco airtel to Bureau, dated 9/22/75,
which furnished identification of 15 individuals for whom
latent prints were to be compared.

The following evidence, received from the
indicated locations, is being forwarded for appropriate
examination.

The FBI Laboratory is requested, when listing
specimens in Laboratory reports, to include the San Francisco
code numbers assigned to each item of evidence, in addition
to appropriate Laboratory specimen numbers.

41-Q One straw multi-colored purse.

41-I One white basket weave purse.

41-P One small black purse.

41-J One medium woven design purse.

41-N One tan purse.

37-B One white gym bag.

RE: JERRY FORD, CALIFORNIA LICENSE AND TAG

Forwarded to the Bureau under separate cover is a copy of evidence of material obtained from a search of JERRY FORD, California license TAG 720 by JOHN PAULI, Criminalist, Los Alamos County Sheriff's Office.

Also enclosed for the Laboratory and Los Angeles is a copy of an FD-302 of SA THOMAS J. BULLIVANT setting forth an inventory of the evidence obtained from the car.

The FBI Laboratory is requested to make tool mark comparisons for the tools enclosed with the material that was obtained from recent searches in the inventory folder and the material that will shortly be forwarded to the Laboratory.

The latent fingerprints section is requested to process the material and compare with the prints for the subject in the conventional manner.

K. 10020000000

The Assembly consists of 2 or 3 pieces, 2 end caps and 2 sections. The end caps are mounted on either end of the 2 sections. The end caps are used to the sections end of the assembly.

The components are all $\frac{3}{4}$ (Inches). The Union is the same as the 3 or 4 sections opposite the design within 3 or 4.

One end cap has been drilled with a drill in the old design.

A small amount of material of the interior of the components is removed and is used as a valve for the assembly. The end caps are used to the end of the assembly.

There is a short length of $\frac{3}{4}$ (Inches) which is used to obtain the end of the assembly.

No discernable tool marks.

12-27-95 (D.D.)

on a number

Devices consist of 2 rings, a 90° elbow and 2 end caps. The rings are 1/2" in dia (1/2" dia) and 1/4" in length.

The end caps exhibit the material used. Characteristic "J. P. Ward" pattern on surface.

The 90° elbow exhibits the same pattern on opposite sides. It is approximately 1/2" in dia. "H.T." respectively.

There are 1/2" holes drilled into the 2 p.c. elbow and the end caps. One of both pipe caps.

The hole at the opening of the elbow contains a length of red and white wire. This is a 10' wire, 1/2" in dia. The 1/2" at the end is connected to the ends of a length of "1/2" element" wire. The connections are wrapped with one length of black plastic tape. The opposite ends of the red and white wires have been wrapped and secured with 2 p.c. of black plastic tape. The wires are utilized within the elbow (see sketch photo.)

102745

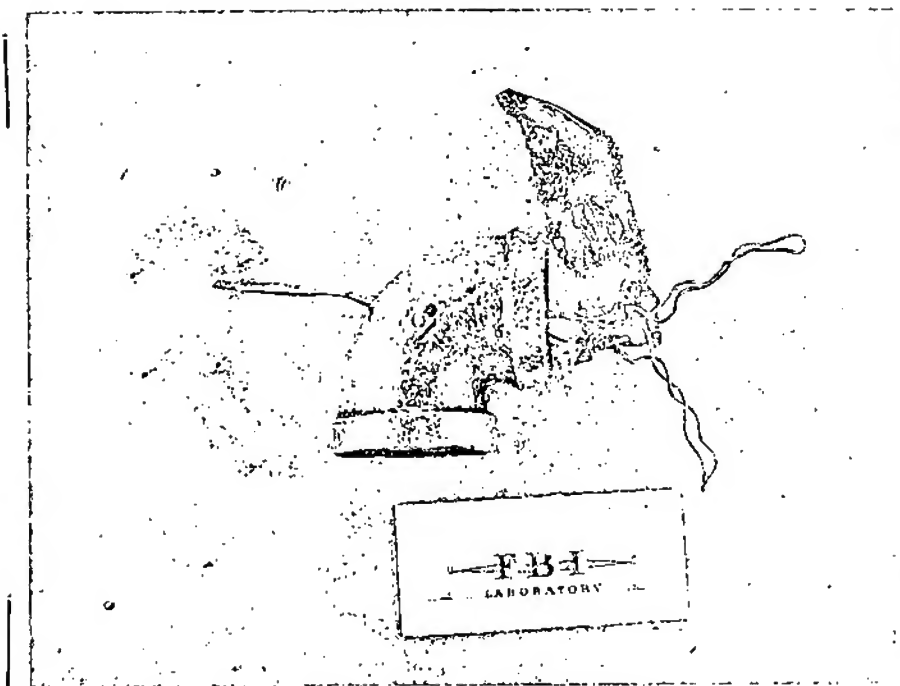

102745

The end of the night, moved to
the elbow, hand level of a blood pressure
cuff, to see if the infant was
for insertion of the nipple, from the
cheek, with one hand, pushed it into
the lock of the matted nipples.

A microscopic examination of the
dilated or parents' mouth, showed
of a small, round, white, fleshy
mass, the size of a pea, on the
nipples. The source of infection was
not discernible.

Tooth marks

Then a ^{small} ^{value} mark on the nipple
of a pair of teeth - the jaw width of which
is not discernible.

M 2245- L240

K471 Improvised explosive device (partially fabricated) consists of: pipe nipple exhibiting the following dimensions:
2.385 O.D. (2" size)
1 ft length

2 End Caps exhibiting irregular ends (in center of ends) resembling a "G" or "C" shape. The end caps have been sliced down to what appears to have been 7/8" diameter.

6 Volt Battery - Consists of "Eveready" type Battery, NO. 5105, NEDA 915, 6 Volt. The battery has been damaged on the bottom. The bottom cover & 2 intermediate covers are still primarily for cell circuiting / containment being separated. The bottom cover exhibits the code "IO" or "OI".

This battery is similar to K297 with except K297 exhibits code "IC".

Spring driven alarm clock - Consists of a wrist clock with circular face configuration (no movement or model to discernable in action). The plastic cover (case) has a ^{metal} screw through it at the 3 o'clock position. The ^{stripped} end of a length of white plastic insulated Cu wire (.035" dia) is wrapped around the screw. The ^{stripped} end of a length of red plastic insulated Cu wire (.034" dia) is wrapped around the body & "wing" projections of the wrist brook and the other end is connected to a switch (see "switch" below). The ^{stripped} white wire described above is unconnected and has been stripped approx 2".

Switch - Consists of a SPDT switch with brown phenolic plastic body. The "switch blade" bears the designation "RODALE". The ^{other end of the} red plastic insulated cu wire desc. above (the ^{terminal} end of which is fastened to the wire knob) is fastened to the knife blade lever terminal of the switch. It is noted that the switch was in open position. One of the end contacts of the switch - has the (thinned) end of red insulated wire (see "A")

K 1 - Continued - Page 3.

Switch

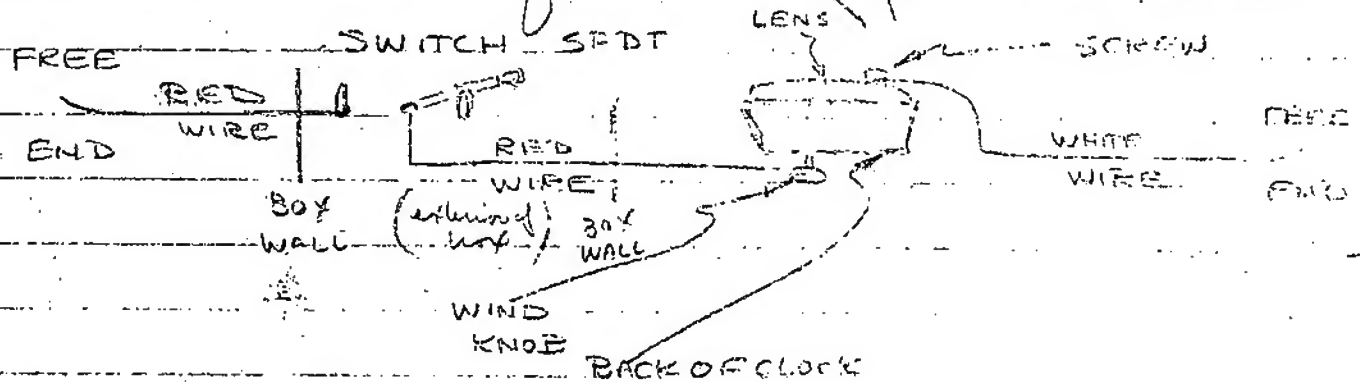

retained by the term, screw. The other end of this wire has been stripped for approx. $2\frac{3}{8}$ " and is unconnected. The switch is secured to a cardboard box (described below) with 4 lengths of $\frac{3}{4}$ " black plastic electrical tape to be described below. The 2 wires connected to the switch (described above) enter the box through 2 holes to either side of the switch.

Device Container

The device is contained within a cardboard box measuring 10"x14" by 4" deep. One corner of this box appears to have been torn and subsequently secured with $\frac{3}{4}$ " black plastic electrical tapes (2 pcs. parallel with length, one piece going from top to bottom of the corner). On the ^{opposite} corner of the box ~~opposite~~ (the short side) is a small deep box which has been secured to the cardboard box with 8 lengths of 1" black plastic tape. The switch described above has been secured to the outside of the box (as described above).

K171 (Continued) - Page 4

Circuit - Examination of the device revealed the following partial circuit.

As examined neither the battery or the opened device were in the circuit.

Ex. 11 Continued - Page 35

Powder

The specimen also contained a 16 oz. (1 lb.) can of "Vesicular Blue Dot, Premium Smokeless Powder for Magnum Shot Shell". The lid of the can exhibits a price sticker with the following: "Siegel's Guns, 1, \$6.70". The bottom of the can bears the printed date: "Jan 8".

Microscopic exam. of contents disclosed 2 types of powder housed in ply. Configuration. One of which is "Blue dot".

Microscopic exam. of the pipe end cap revealed numerous particles of smokeless powder some of which are "Blue Dot". The presence of smokeless powder indicates the device to have at one time been filled.

Nipple - The specimen also contains a pipe nipple of the following dimensions:
DIA. 2.385" (2" size)
Length - 11"

The nipple exhibits no alteration.

K. Colquhoun - Page 6

Tape

The device was partially wrapped in black plastic electrical tape in such a manner as to secure the battery to the pipe nipple. This tape $\frac{3}{4}$ " in width was cut with a tape dispenser type cutter. All the tape on the device has a continuous line to the tape in specimen K45 which is contained within a dispenser with a cutter.

Toolmarks

Neither the device nipple nor the other nipple from the specimens exhibited tool marks over and above those produced by the threading machines utilized during the nipple fabrication.

Name: "bridge wire" assembly,

- 142) Copper wire (.035[±]) with green plastic insulation
- 3) Zinc wire (.020[±]) originally coated

did/didn't

K377

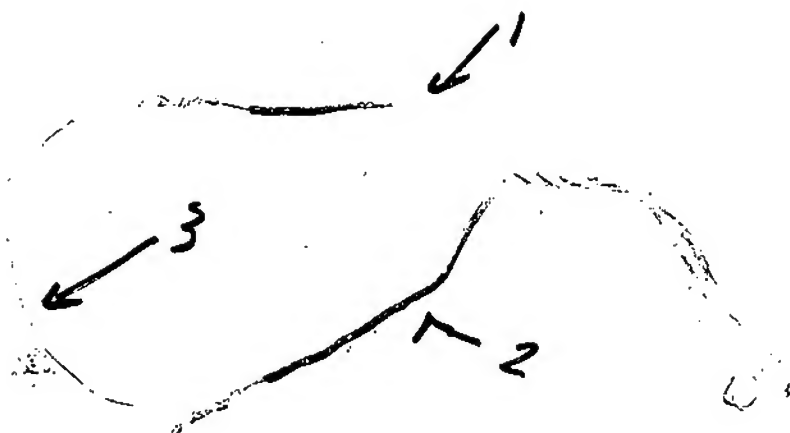

Handmade "bridge wire" assembly

- 1) Copper wire (.035 \pm) with yellow plastic insulation
- 2) Copper wire (.035 \pm) with green plastic insulation
- 3) Brass wire (.025 \pm) originally coiled

Checked/Dictated

K-376 Wire (unad-bag)
Homemade "bridge wire" assembly

Choosing on insulation of "1" & "2"
wires - tested in past.

1 & 2) Pinkish red plastic insulation, copper
wire (.035 \pm) OD insulation - .071 \pm

3) Bare wire (.016 \pm) originally coiled

checked / checked

K375: yellow insulated wire (RED-bag)

Coil of yellow insulated Cu wire w/
DNR other. pe. of like insulation.

OD INS. / .060 ±

DD wire / .035 ±

TM-3 end cut, jawed, 1st (on top) end
pinch, other appears electrically
value.

~ to yellow insulated wire in K457.

K374 green insulated wire (MKD - 689)

Coil of green insulated Cu wire plus a
short length of ~ wire & two pcs of insulation.

OD ins / .065 ±

OD wire / .035 ±

TM's ends cut, appear sheared (one end)
value one end, non-ferrous object.

~ to wire in K437

MARK 4026

KS40 is a 2 white insulated wire (MFD) 20, 20,

No mfg markings or identification.

A) Red insulated wire

OD ins / .067 ±

OD wire / .035 ±

TM's ?

B) White insulated wire

OD ins / .067 ±

OD wire / .035 ±

TM's: Cut, appear exact - value.

11/27/52

K372 100% white insulated wire (MKD-623, 100%)

No mfg markings on insulation

A) Red insulated wire:

OD INS / .067 ±

OD wire / .037 ±

TM's cut shear, limited value.

B) White insulated wire:

OD INS / .061 ±

OD wire / .036 ±

TM's: cut, appear shear, limited value.

11/25/51

K350 wire (11/25-51)

length of bare steel-like wire - one
end cut, pinch valve. On this end
appears a second partial cut valve. Also
shows tool having mfg. grind marks in
diagonal cutters. Other end is mfg. there.

Mr. Cochran *NC/3*

FROM : M. J. Stack *MS/3*

SUBJECT: HEARNAP

Purpose:

This is to recommend that the attached two boxes be filed as bulky enclosures to captioned file.

Recommendation:

That this memorandum be forwarded to the Records Management Division for appropriate processing.

Details:

The enclosed two boxes contain intra-Laboratory Chain of Custody Records, Laboratory worksheets of examiners in the Physic - Chemistry Section, photographs and other referenced-type material which will only be needed in connection with subsequent court trials.

The boxes do not contain any original correspondence or original enclosures to official Bureau correspondence.
